08 Nov 2024	Lisa	C.	YES	491	10	I really thought Pass the OT study resources and videos were very good. The instructors were all different but were very knowledgeable. Going through more practice questions with rationales was helpful. Perhaps a mini video for each section dedicated to practice questions would be helpful in addition to the ones reviewed at the end of lecture. 27 Feb 2025	Sarah	C.	YES	455	8	I enjoyed using this packet in conjunction with my other study pack. It was a good tool and was detailed. I would have liked to have had visuals with the recorded audio bc there are a few that mention PowerPoints. Other than that I think it was a pretty good tool to use. I would have more feedback but I did not use all the tools available to me. 26 Sep 2025	Sydney	M	NO	448	7	I do think that pass the OT helped me but it was very overwhelming. I feel like in some topics you go way too in depth to the point where I felt like I had no idea what I was even looking at. Maybe lightening to load of the content would be much more beneficial for students who are stressed and trying to study the entry level material. 23 Oct 2024	Veronica	W.	YES	466	7	Make the questions more NBCOT based/worded. The questions on pass the NBCOT were most content mastery rather than how the NBCOT words their questions. I also would recommend adding more about TBIs/NICU/palliative care.	other	OT Interactive	386 Days	76.36%	58.44%	-
10 Oct 2024	Victoria	M.	YES	500	8	PasstheOT questions were very content-based. Although that's important AOTA and TrueLearn had the best questions in my opinion because they required more critical scenario based thinking with more detailed rationales. PASSTHEOT is hands down the best service to help review content. Could not have passed without the visuals easy explanations in the videos and documents.	other	First Time - OT	413 Days	57.03%	83.00%	No
